I wouldn't go here if

STAR WARS

EXHAUST PORT

# STAR THE EMPIRE STRIKES BACK WARS

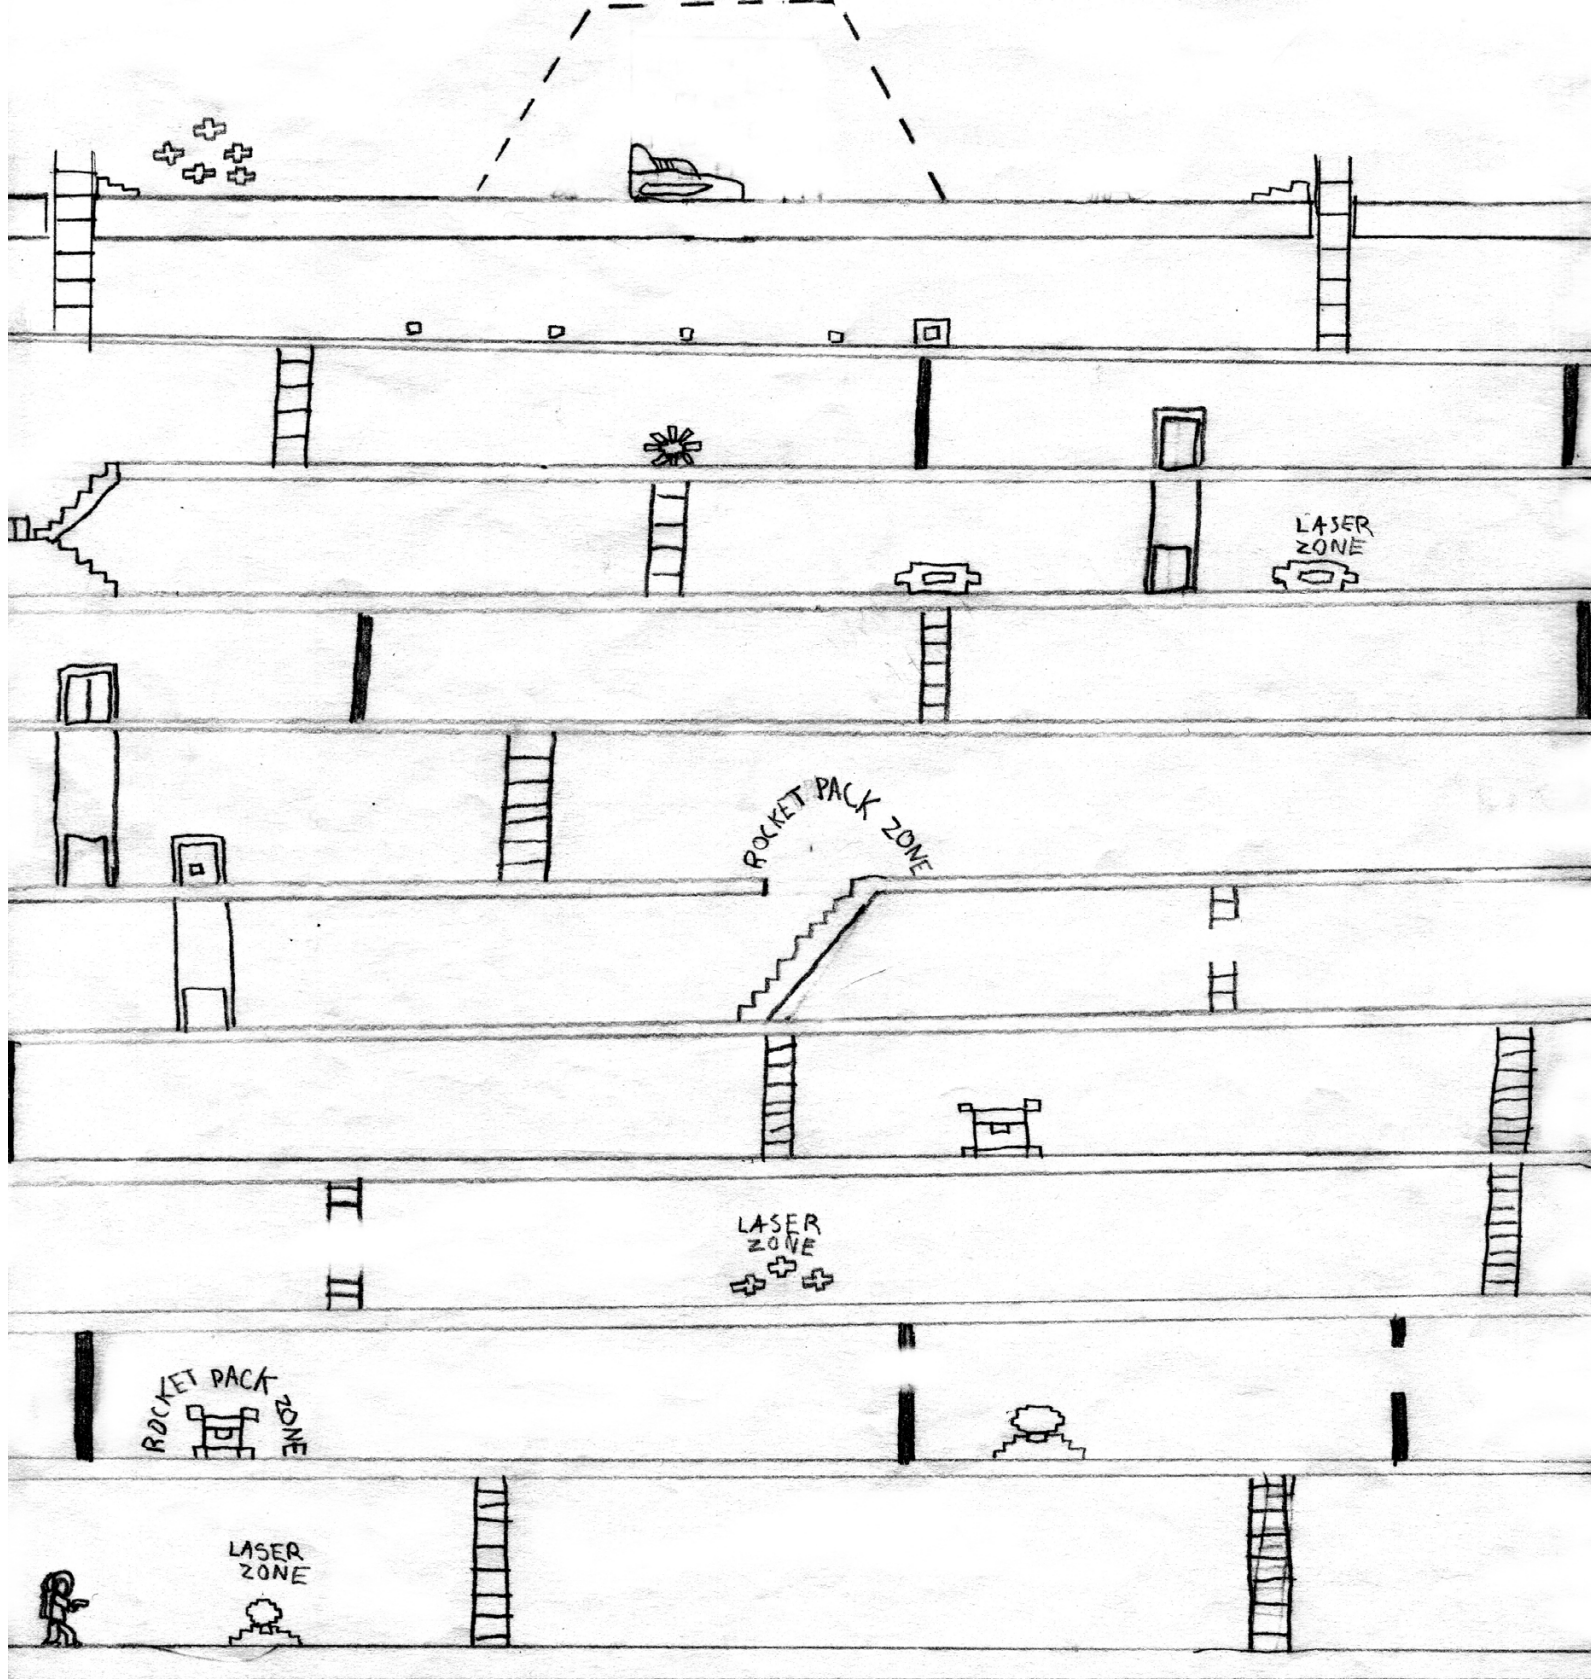

Find the right finish after getting through the mixed maze. Answer on back

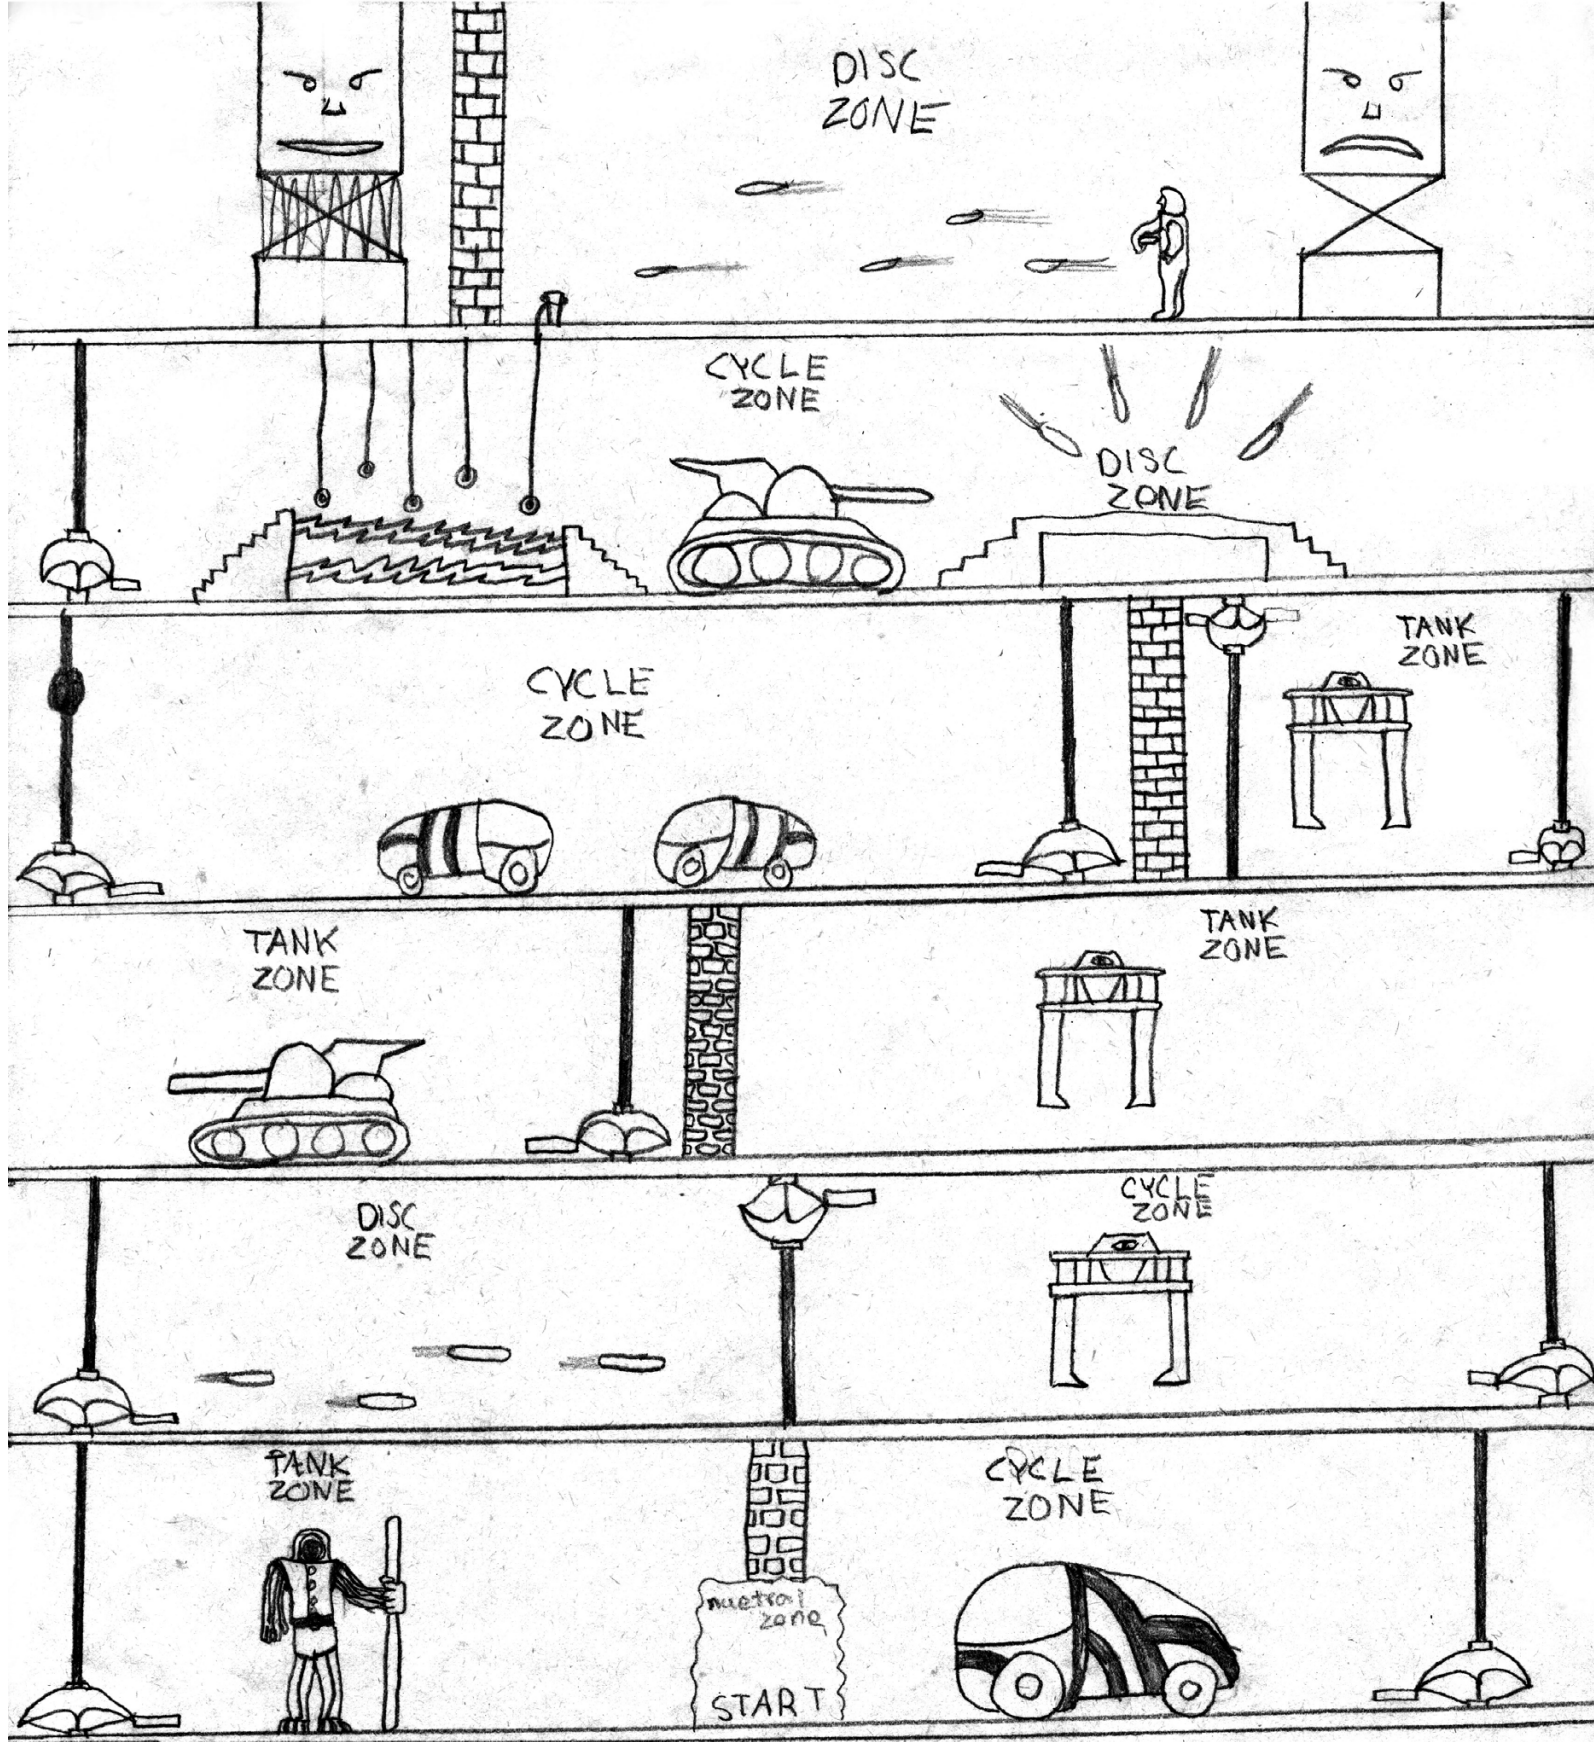

☹=Death

Get the key in the middle to save Pac-Man!

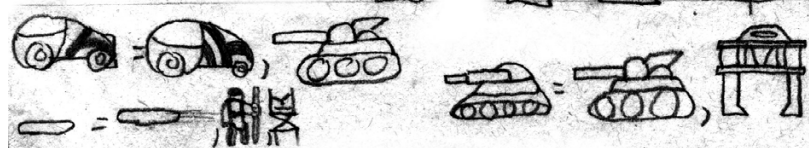

Get to your ship to defend the Earth! LASER ZONE, ROCKET PACK ZONE = Safe

# DEFENDER

# TRON #2

Through the game grid!

You have 3 and only 3 defenses for each type of zone.

This is one of the most straightforward mazes I had done.

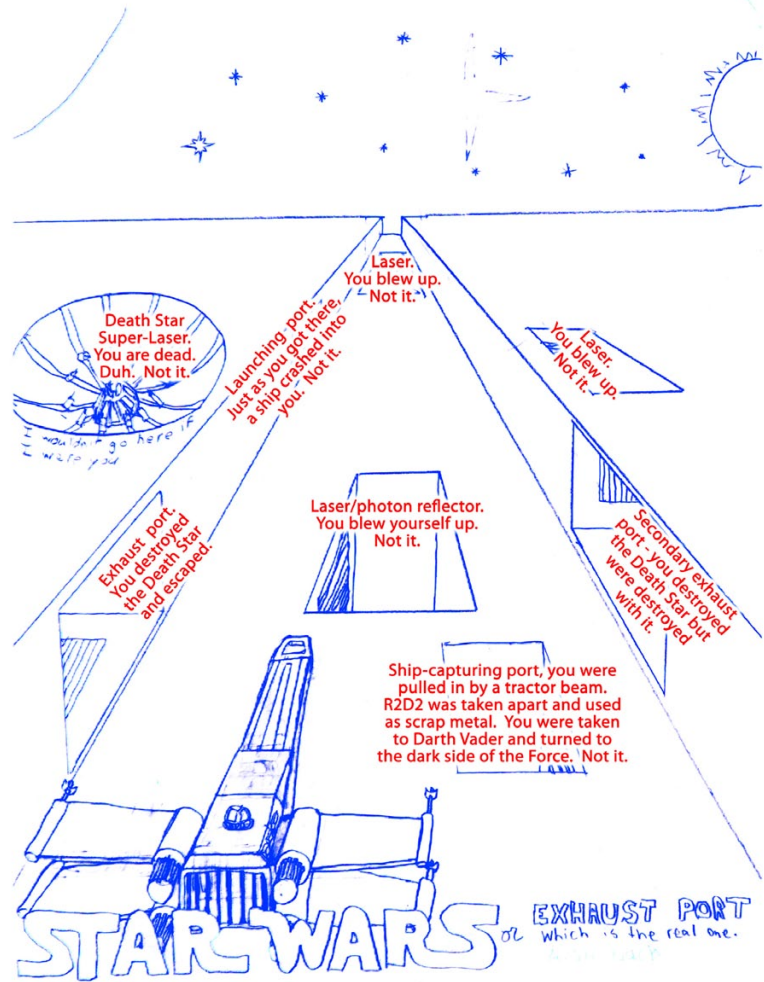

Goctha!

# CENTIPEDE

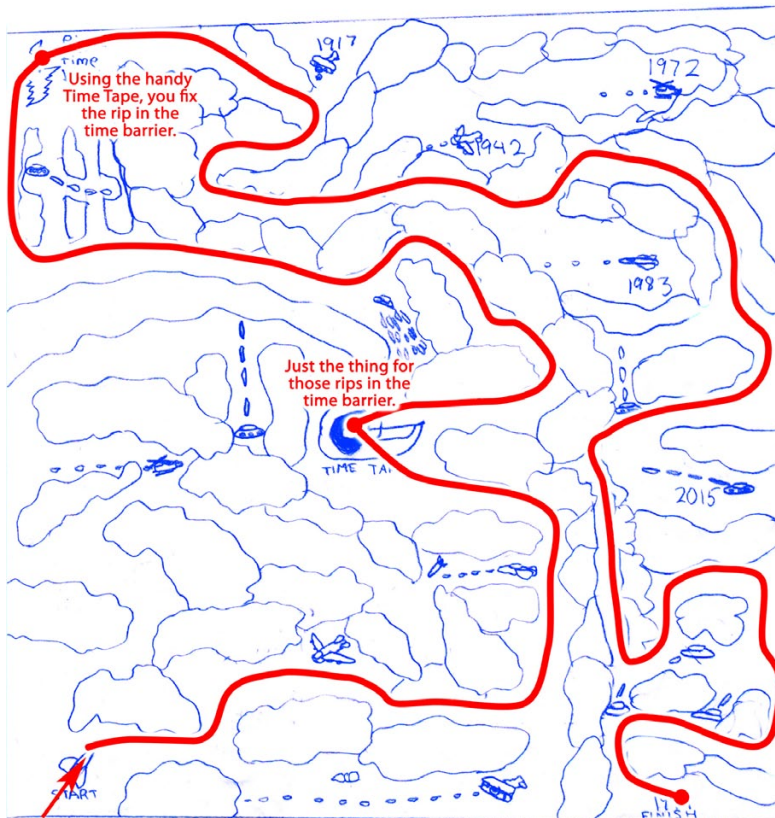

The bugs of the world have radioactively gotten out of proportion. Get past the mushrooms to get to the king centipede and destroy him.

As a pre-teen, I can hardly be held responsible for making an adverb out of "radioactive."

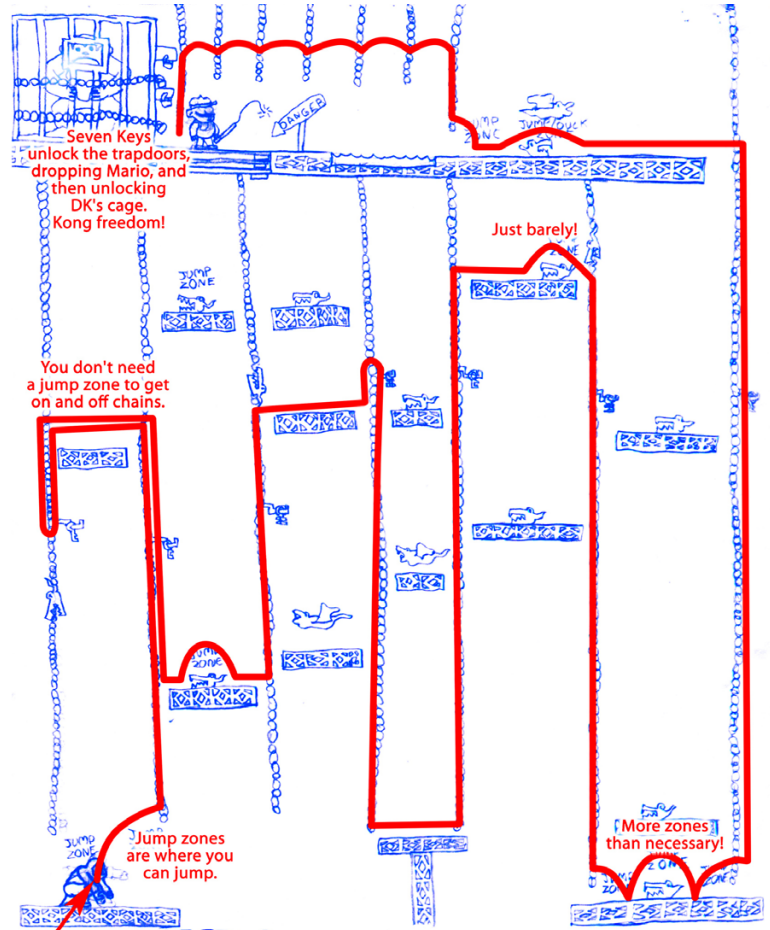

# STAR WARS

EXHAUST PORT or which is the real one.

# Time Pilot

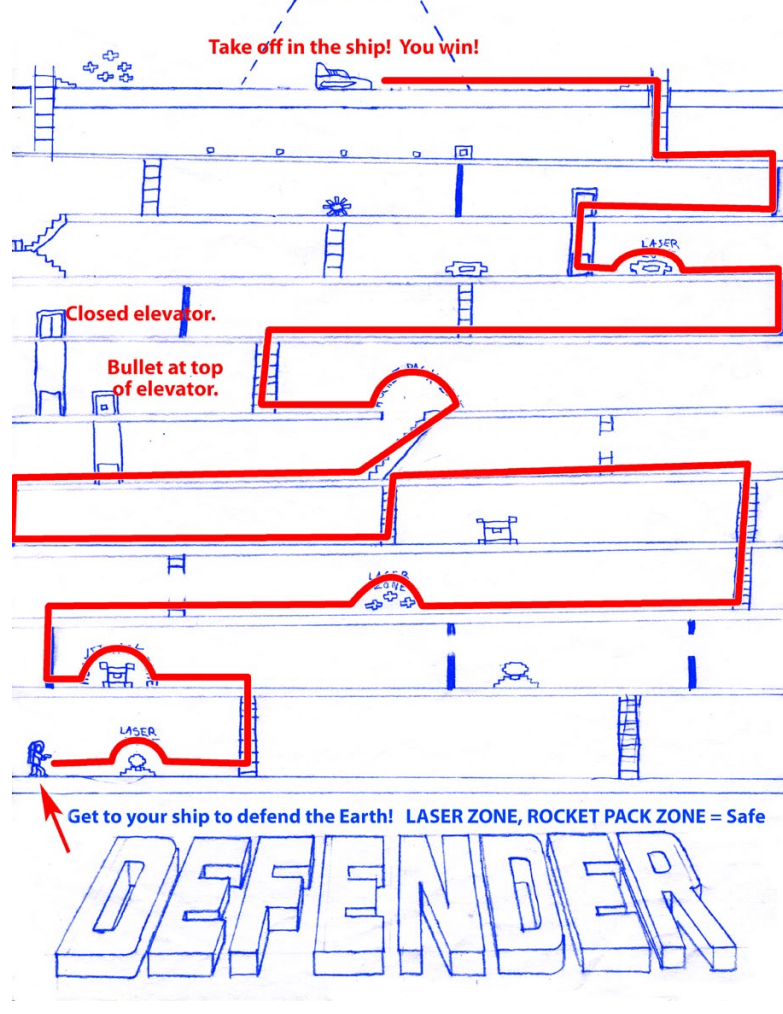

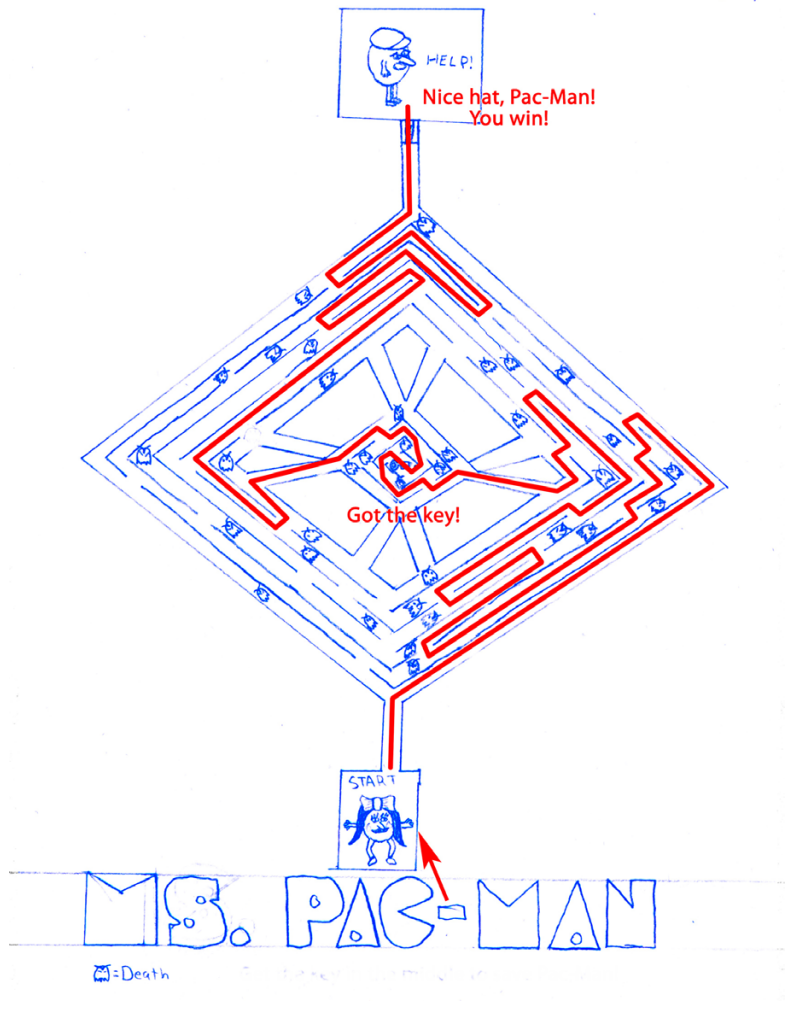

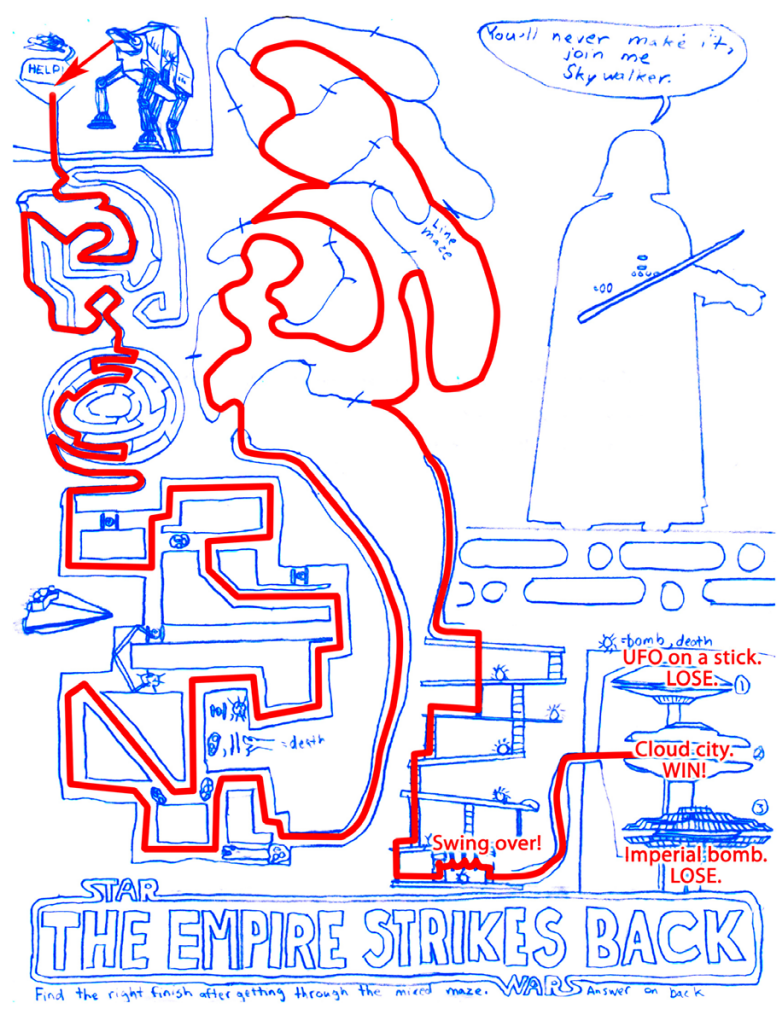

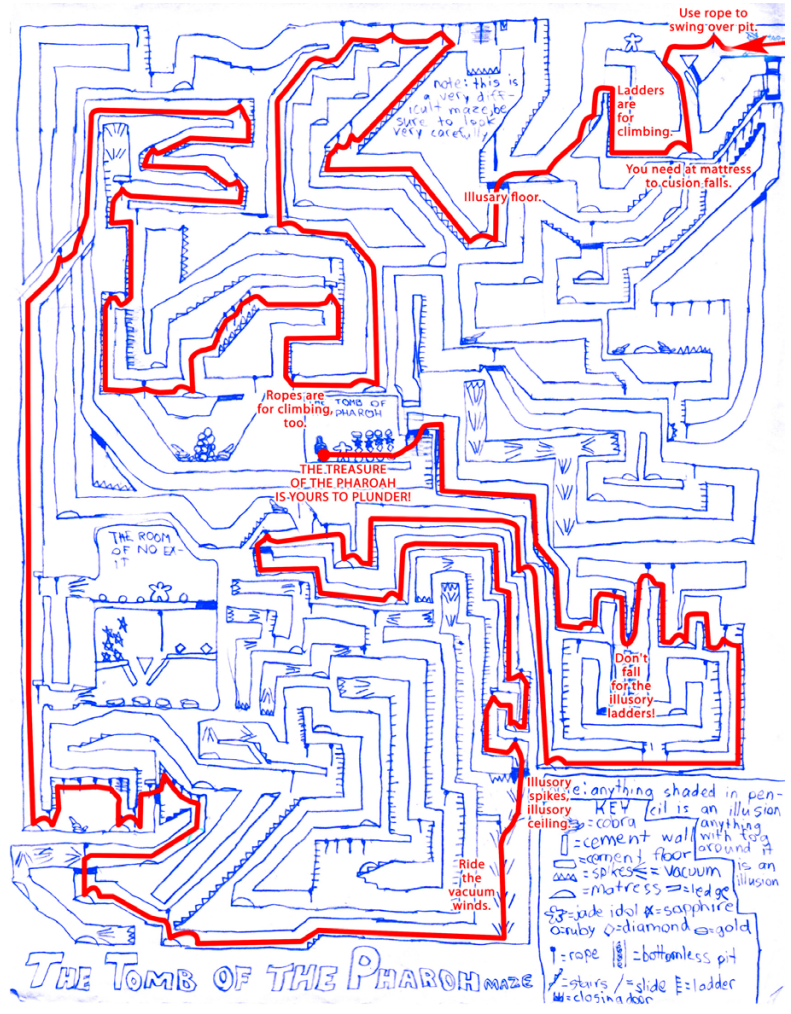

You stupid! You accomplished! Mission accomplished! Enemies in all times are around you. Radioactive clouds from the future are here too. Get through the maze and fix the time barrier with the time tape you find and get to your time (1990).
